Program SALSS 2008

Swedish-American Life Science Summit
Stockholm, Sweden
August 20-22, 2008

Dear Attendee,

It is my great pleasure to have the opportunity to welcome you to the Swedish-American Life Science Summit 2008. For four consecutive years, the Summit has managed to integrate innovative and progressive transatlantic business opportunities and the exchanging of know-how by gathering some of the worlds most brilliant and resourceful minds.

The Summit serves as a unique arena two days every summer, exhibiting a much appreciated display of Sweden's foremost life science companies and the best of cutting edge Swedish technology in an engaging and reciprocal manner.

In light of the recent volatility in the global market and particularly in the U.S. economy, the natural emphasis of this year's discussions will be the financial effect on U.S.-Swedish business relations and how to continue to locate business potentials.

While Sweden has a well-grounded reputation in terms of quality and commitment to the life science industry; the U.S. is well-known for a phenomenal understanding of the importance of creating and nourishing this growth induced industry. I can not think of a better place for the two to meet and entwine than at the stimulating venues of the Swedish-American Life Science Summit in the beautiful City of Stockholm!

Sincerely,

Per Unckel

Governor of Stockholm

Program

EVENING OF AUGUST 20, 2008

NOBELGATAN 2, STOCKHOLM

- 5:30 pm- **Welcoming Reception**
7:00 pm The Residence of
